THE MASTERS' ENERGETIC CONTRIBUTION TO 2019 (Part 2)

ARCHANGEL MICHAEL: ENERGETIC SUPPORT DURING THE PURGE

HIGH LORD MITREYA: HIGHER-LEVEL WISDOM AND KNOWLEDGE

SAI BABA: ALIGNMENT OF THE MERIDIANS

JESUS CHRIST: INNER COMMAND

GURU NANAK: FALLING IN LOVE WITH THE SELF

Greetings!

THE ENERGIES OF THE BEHRAM YEZAD GREET YOU. WE ARE ALSO KNOWN AS ARCHANGEL MICHAEL.

We will continue where we left off last week, detailing the contribution of various Master energies to your growth and evolution during 2019.

The Behram Yezad contracts to help anyone who calls upon his frequencies to better deal with issues, emotions and inner turmoil; all of which is currently arising as you energetically 'purge'.

Many of you are currently on an emotional roller-coaster and are finding it difficult to cope with life in general. If this is so, pause for a few moments, call upon our frequencies, internalize them and then review the same situation afresh. You will instantly find a new perspective arising.

We will guide you, advise you and even, if necessary, nudge you in the appropriate direction. But please understand that *we will not do the work for you*. That must come from your personal energies and your endeavor.

The Behram Yezad, the Archangel Michael, is making his presence very strongly felt on Planet Earth right now. If you are energetically sensitive, you will feel our presence in your lives and your homes. Some may even experience random flashes of light; possibly from the corners of the eyes. These are our frequencies. Use our energies, internalize them, vibrate with them; they are yours to command.

It may interest you to know that our energies are already being called upon, subconsciously, by most children and teenagers worldwide. We have a particular affinity with their structures; and they with ours. They intuitively respond to our power, potency, focus, directness and passion. We have an energetic ‘no-nonsense’ frequency that greatly appeals to them. When you deal with children, you might want to point this out, thereby offering them the opportunity to *consciously* connect with us as well.

BLESSINGS.

THE ENERGIES OF THE HIGH LORD MITREYA BLESS YOU.

These energies will help with your rapid growth. ***They will support anyone who seeks wisdom and knowledge.*** Listen to our words carefully: anyone who ***seeks*** wisdom and knowledge.

The endeavor and effort has to be generated by you. Then our energies kick in. We will not only guide you to the appropriate areas in which you will best grow, but we will also help you better

comprehend that which you study.

We are working exclusively with the brain, pituitary and pineal glands. We urge you to study that which appeals to you this coming year; it's a wonderfully academic time-period. ***When we use the word 'study', we mean that you should push your boundaries and further explore that which interests you. This could include that which you already enjoy, or something new and unexplored that now attracts you.***

Do this in any way that appeals to you: by taking up a course, reading extensively about it, working at it hands-on, discussing it with an expert in the field or even downloading the information directly. But *make* the effort: it's a very 'educative' year for the whole human race.

BLESSINGS.

SAI KA PRANAAM! The energies of the Sai Baba bless you.

The Sai's energies would be the most appropriate to call upon, should you wish to work on your personal energies; ones housed by the physical body. Their focus will be energetic balance and alignment; not body shape. But if you work towards streamlining your energies, strengthening your immune system and upgrading your frequencies, the body will naturally follow suit and start to assume the perfect physical form...for you.

Our focus is energetic illumination, health and well-being. Many on earth are currently going through a purge; one that is causing blockages in the meridians. Some are even energetically cramping. This prevents energies from being evenly distributed throughout the physical body. This, in turn, could lead to unnecessary ailments and

diseases.

In some cases, people are in relative (energetic) balance, but are surrounded by intimate relations who are not. On occasion, they unwittingly absorb these frequencies, throwing their own meridian systems out of whack.

This is the ideal time to call upon the Sai's frequencies to help you balance and align your meridians. Ideally, do so just before you fall asleep at night, so that we can work on you while you rest. ***This does not require 'prayer'; just a simple invitation on your part.***

Yes; our participation in your healing process has to be asked for. We are currently not allowed to invade your structure without your express invitation. We suggest you call on us every night; then fall asleep and leave the rest to us.

Are we permitted to invite you to work on our children?

Yes; you may request us to work on your children. We will do this directly; we will not use you as a surrogate. You may even invite us to work on any child or group of children you wish to bless, even if they are not your own. Here, when we speak of children, we refer to all those under the age of 25.

You may also do so on behalf of old, infirm and/or mentally challenged people.

You will have noticed that, in this case, we have not asked you to participate. We come bearing energetic gifts. Accept this gift in the spirit in which it is offered. (Smiling) You will not create any karmic imbalances by doing so; just enjoy the gift!

SAI KA PRANAAM.

A SPECIAL BLESSING TODAY FROM THE ENERGIES OF THE LORD JESUS CHRIST.

You have already been told that these energies will work, this year, helping you access **command, leadership, focus and endeavor**. But we wish to add something to this list. These energies will also help you develop **inner command**.

Many on earth who have experienced hardship and heart-break over the last 7 years have gone slightly adrift. These energies will help you get back on track, get centered, and once again 'assume command of the ship of your lives'. **Internalize our energies and you will once again feel balanced, aligned, 'in charge', centered and empowered**. They will help you to continue sailing through the stormy seas of the future.

We say this quite deliberately. As you well know, the next few years are going to bring earthly upheavals of all kinds: fluctuations in the financial market, political changes, earth movements and other such challenges which need to be met with balance and command. Enjoy our empowering frequencies.

Blessings!

THE LAST ENERGY THAT SPEAKS TODAY IS THAT OF THE GURU NANAK COLLECTIVE. WE BLESS YOU WITH OUR GOLDEN LIGHT!

These energies offer you the opportunity to **fall in love with the self**. Sounds simple? This is one of the most complex, yet vital, aspects that you have to work at, throughout 2019.

So far you have begun to befriend the self. Now you are urged to fall in love with the self: *a very special romance*. The Guru Nanak's golden light, if internalized by you, will help with this process.

We offer blessings to you and all those on Planet Earth. Our light shines brightly, enveloping the planet for the next three days, starting today. It will, of course, continue beyond that period, but our light is the strongest right now. We will continue to bathe all the kingdoms of Mother Gaia; open to the radiance. It's yours to enjoy.

BLESSINGS.

(Sohrab now speaks in a link)

Before we end, let me inform you that there are many, many energetic visitors in the room today. They are loved ones from the spirit realm. Many are 'energetically youthful' friends: souls who left earth at an early age, as well as souls from abortions and miscarriages. All, *bar none*, are here just to love and bless you. They are only here with thanks and gratitude. Take a moment and receive their special blessings. (Pause)

Now let us bless all those whose names were listed for healing with Guru Nanak's golden light. Please envelope them, yourselves and your loved ones, with this light. (Pause)

Thank you.
