

Sohrab's channeling

20<sup>th</sup> December 2018

## THE CURRENT ENERGIES OF THE CHRIST OFFICE

*Sohrab shared with the group some information from a prior meeting about Jesus Christ. In keeping with the Christmas spirit, it was decided to start the meeting with 9 chants of the word JOY, instead of the customary OM. The group did so.*

You call that joyous? It sounded like you were chanting the word 'pain'! (Laughter) Please repeat the chants; this time with genuine joy in your hearts! (The group did so)

Better! ARCHANGEL MICHAEL GREETES YOU!

Dear friends, take a moment now and bathe yourselves, and all the names listed for healing, in pure golden light. Just open and receive. (Pause)

Imagine you are being showered with golden drops of rain. Just receive. (Pause)

Most of you did open up, but many unconsciously resisted in the heart. Kindly repeat the process... but this time, consciously open up the heart chakra. Command it to do so. (Pause)

And it is so, and it is so, and it is so.

Dear Friends, you were informed last week that the energies of Christmas, this year, are focusing on 'Love Thy Cells'. Let us, this week, share with you some of the *current* energetic attributes of the Christ Office.

**The Jesus Christ** has, this year, deliberately subdivided his energies, so as to relate to different groups of people in differing ways. Masters often do this; so do you. Don't you related very differently to a small child, a peer and a much older person? The Lord Jesus Christ is doing exactly the same this year.

We remind you that the theme and the flow of Catholicism is love. Those who have chosen to incarnate into this faith, or convert, or simply follow it because that is where their heart has led them, have done so for one of two reasons. They are either flowing with love and wish to share this with others, or they have a repeated past-life history of being *unable* to freely give and receive love, and wish to break this pattern of lifetimes.

***The first group that the Jesus energies will target this year is those who are blocked in the flow of love.*** He will urge them to work at opening the heart chakra.

The people who welcome this energy will discover new forms of love: self-love, the ability to love others, the ability to embrace situations and a new understanding of the concept of gratitude.

There are those, however, who will resist the flow of love by stubbornly sticking to rigid practices, penance, bigotry, self-flagellation and the mistaken belief that suffering is the way to Godliness. They will be shaken up extremely vigorously all through 2019. Yes, they will be battered quite deliberately, to give them the opportunity to awaken.

This will be offered in an area which is most appropriate to each person. One person may receive a physical shake-up, another an emotional one, and the third a financial one.

Should you come across these kinds of people during 2019, assume your role as a Lightworker and help them understand why they have created this. Urge them move away from rigidity and dogma, so that they open to the flow of love.

We remind you: the Universe is not a punishing one; it is built on Joy. J-O-Y. Joining Yourself with OM. The 'Om' has deliberately been placed right in the center of the word, because the Om is the energetic fabric, the very center, of the Universe.

What we have just shared is not reserved for those of the Catholic faith. It applies to the whole human race. But it will apply more intensely to the group we earlier mentioned.

***The second group is comprised of those who are already flowing with love to a harmonious degree, and wish to further increase their quotient of love.*** They will receive, from the Jesus, the most loving, nurturing, supportive energies. The Christ office will offer them repeated opportunities to experience love in more powerful ways; particularly in the area of self-love.

***The third group comprises of those who are self-seekers, self-searchers and spiritualists of all possible cultures and communities.*** For this group, the Jesus will take on the form of Lord Sannanda, leader of the Ashtaar Command. He will urge you to, and provide you with, repeated opportunities to explore leadership, balanced command, focus, direction; and guide you towards your mission.

You will feel impelled to be the fullest Lightworker that you can be, by healing, guiding and enlightening others. Above all, he will urge you to 'be true to thine own self'. And thy cells.

These are the three basic layers of how the Christ energies are going to function this coming year. We suggest that all of you really open to the Jesus frequencies during this festive season. You may, of course, continue to do so later; but right now they are at their most powerful. They are golden-white frequencies; very light, vibrant, beautiful, encouraging, enlivening ones. Enjoy them: they are yours to internalize and command.

Let us now speak of the current **Mother Mary** frequencies. She is,

once again this year, working with Earth in her form as the **Universal Mary**. For the benefit of many in this room who are not aware of this information, let us explain this.

***When the Jesus and the Mother Mary played out their roles on earth, they did so as mother and child. In their Universal forms as Lord Sannanda and the Universal Mary, they are not mother and child; they are, instead, consort energies.***

***In Universal terms, this does not mean 'husband and wife', it means parallel energies of equal intensity; ones that work together in complete equality, harmony and synergy.***

She is, once again, flooding earth with her energies of feminine empowerment. She did so last year, and this process has been extended 'by popular demand'.

Please understand the difference between feminine empowerment and feminism. ***Feminism, on Earth, is extremely necessary. It implies agitation, shouting, making your voice heard, taking out a demonstration and so on; so as to be heard, acknowledged and to gain equality.***

***Feminine Empowerment, however, is such a space of expansion and creativity that you JUST ARE. You don't need to shout or prove a point; you just flow with creativity and magnificence.***

Please also note that feminine empowerment applies to men and women alike, whereas feminism applies to the earthly female form.

So, the Universal Mary continues to flood the human race with feminine empowerment, urging all to find their inner power, explore their creativity and acknowledge their magnificence.

It is the Universal Mary who has instigated the "Me Too" movement. (Smiling) Now we urge you to also say "Me Too: I choose to access my feminine empowerment and acknowledge my magnificence".

Questions?

*Is the Universal Mary considered to be the force of Shakti, the Eternal Goddess?*

This is an era in which there is no longer can be any separation between any Goddess energies, if you are of a certain level of vibration and awareness. However, if you have not yet achieved this, then you still need to separate a Laxmi from a Saraswati from a Mother Mary.

The Universal Goddess energies have completely merged. Even if you call upon one, you are, in actual fact, drawing upon hundreds of thousands of Goddess frequencies, all of which collectively form Feminine Empowerment.

The **Brother Joseph** energies are *the ‘strong but silent’ ones. They are extremely loving and nurturing; but powerful. They are ‘take charge’ energies. These father-figure energies are also influencing earth in their silent way.*

*They urge each human being to play the father-figure for the self: to nurture the self, provide for the self, husband the self and so on.* Very, very important ones. Do call upon them, as they are often ignored. Call upon them to flood your homes, your lives and of course your physical structure.

The **Archangel Michael** now speaks of his energies; he also speaks on behalf of the entire angelic realm. The Angelic realm is also constantly upgrading. We are beings of tremendous power and potency.

On Earth, you continue to view Angels as ‘fragile beings with delicate wings’. This is not so at all. Our realm certainly has refined energy, but our frequencies are both powerful and Universal. ***We have currently merged with our ‘cousins’ in different realms.***

The Angelic realm associated with earth spreads love and healing.

Our 'cousins' work with other Universal societies; ones which have different needs. Certain societies, for example, require us to offer them a boost of knowledge and wisdom. Yet others need only awareness.

As we are now merging, we are able to offer you so much more than before. Do call upon us for love and healing, as well as wisdom, courage, awareness, expansion and so on.

Many in this room, and this group, are Angelic devotees. Now re-discover our frequencies. We are joyous, mighty, powerful warriors of the Light.

MICHAEL BLESSES YOU.

(Sohrab shifts energies)

THE MEHER (BABA) BLESSES YOU.

The Meher suggests that you use the last few days of this year to joyously celebrate the self. Now stop all the hard work. You've done your share of self-searching and purging and looking at issues. Take a break. Just have some fun.

Celebrate who you are. Congratulate the self for all that you have withstood and overcome during this rocky year. You have all displayed unusual courage, awareness and expansion.

Yes, you may have fallen down several times along the way. But you have always picked yourselves up and proceeded onward. That merits a celebration.

Romance the self. Tell yourselves how much you love YOU. Go to bed with yourselves. (Laughter) Dress to please the self. Do things that make you feel good about you. Have fun.

BLESSINGS.
