VARIOUS MASTERS OFFER ENERGETIC GIFTS FOR THE NEW YEAR

Greetings!

A few Masters wish to bless you for the New Year.

This has no bearing on whether or not you like the animal; it is the frequency of the collective that is of importance.

Please be aware that animal guides are going to be extremely powerful for you this year.

We suggest that you meditate on this and discover which animal spirit 'comes to you', or else ask a practitioner to help you identify you this. But we would prefer you to intuit it for the self. After having done so, either read up on the animal guide's qualities and purpose in your life, or else meditate on it and download the information yourself.

Your personal animal spirit guide will serve you, protect you, advise you and accompany you throughout the year.

If you discover that your guide is an animal to which you have an aversion, please do not dismiss the energy. Many people, for example, are scared of snakes: if that collective is your guide, please do not shun it. It does not mean that you have to physically handle snakes. It simply means that there are energies in the collective that are invaluable for your current growth and evolution.

The snake collective is representative of perfect yin/yang balance. The cockroach collective is symbolic of durability, resilience and overcoming all obstacles.

Perhaps this is what you need. Your connection with the animal guide has nothing to do with handling the physical animal; it is the energy of the collective that is of vital importance.

Now, *one particular animal spirit guide has come to serve the whole of humanity by helping you access the new energies of 2020.* This is the *white eagle*. Do meditate on this symbol.

An eagle epitomizes power and the ability to soar (magic-carpet-like). An eagle can zoom in with pinpoint focus on a singular aspect of planet earth; and at the same time can view the 'big picture'. It is equally proficient with micro- and macro-perspectives.

In this case, the symbolism of the 'white' is the purity of the energy that the eagle is drawing to planet earth. The white also represents a blank canvas; one on which you can paint a new and improved future.

We suggest you meditate on the white eagle when you desire a boost in creativity. Think of it when you are having fun. Invite it to soar alongside you.

Will this symbol help in studies?

Yes it will. Since it will help you zero in on anything you desire (with a high level of focus) and at the same time embrace the big picture; it will help you study with intensity while embracing the subject as a whole.

What about health?

This is one of the best symbols to meditate upon while working on physical, mental and emotional health. It will help you move away from the mundane, examine the bigger picture and understand why you have created ill-health. It will then help you target what you specifically need to do.

The ancient Red Indians truly revered the eagle.

Yes they did; they truly understood its energetic significance.

THE ENERGIES OF MAHA AVATAAR BABAJI GREET YOU.

The Maha Avataar Babaji has been appointed the one to be in charge of planet earth during 2020. This, in no way, reduces the contribution made by all your other Masters and guides. He has just been elected the president; the leader of the processes this year.

His energies help you learn how to take command of your lives in the most equitable and balanced manner possible. Connect with his frequencies and he will help you take charge of all situations and events that occur in your lives this year.

He will help you find excitement and variety in life. He will help you lift yourselves out of a rut; one that you might have lived in for years.

Call on him when you are feeling blocked, or that your life is humdrum and mundane. He will help you add colour and variety to your lives.

GREETINGS FROM A MASTER UNKNOWN TO YOUR HUMAN CONSCIOUSNESS.

We choose to remain so. ***Our energies are supplying planet earth with ‘an electrical cable’, helping Her access and disseminate new Universal frequencies.*** These energies have never before been experienced by any of Her various kingdoms, in this lifetime or any other lifetime.

These energies have to be very carefully administered to Earth. An ‘overdose’ would be fatal. But never fear: we will do so in perfection.

Call on us in those moments when you are feeling low, sluggish and unmotivated. We will help you ‘up’ your frequencies in the moment, giving you the necessary boost you need.

Our *personal* energies, when called upon, should not be externally directed; they are for your person use only.

BLESSINGS.

THE ASHTAAR COMMAND GREETES YOU.

We, your Universal friends, are going to be extremely active on and around Planet Earth this year. Many of you will see us: flashes in the sky, a space-craft in the far distance, or just a feeling that we are with you. Some of you may even recognize us on earth. Don’t dismiss this as ‘the imagination’.

We are here to serve you and give you the necessary boost in your energies during 2020.

BLESSINGS.

THE GURU GOBIND SINGH blesses each and every one of you.

He always works with reconstruction. ***This year, he is working to helping people reconstruct (and widen) their limited notions of religious bigotry, societal classes, communalism and so on.***

The Guru Gobind Singh's very modern energies are going to work at influencing the people of earth to embrace unity. He will work tirelessly to help all of you acknowledge that you are brothers and sisters on planet earth and children of the Universe.

Please lead the way, dear friends. Set an example to others. ***Call on our frequencies and we will help you break down your own barriers and help others do the same.*** It's time to truly experience oneness.

BLESSINGS.
