DARSHANA GREETES THE GROUP

A MESSAGE FROM EARTH'S SUBTERRANEAN DWELLERS

EARTHSONG

(Sohrab has trouble holding the very powerful energies coming through. He then bellows out the following message)

GREETINGS... AND... BLESSINGS... FROM... THE... DARSHANA!

(Sohrab shifts energies)

Dear Friends, we permitted this interaction for just a few seconds, as he is unable to hold her quotient of energies right now. Your beloved friend and group member is now in a marvelous space of expansion and vibration, in a completely new realm.

As was mentioned at an earlier session, she did not 'pass over'; but instead exchanged this incarnation for another, very high-vibrational one, in a magnificent Universal society. She has taken all this time (from your perspective) to acclimatize. There was no 'birth' as you know it. Her highest Earthly frequencies were initially integrated into that society's lowest ones. Now, she is a fully vibrational being of that realm.

She wishes to greet all of you, bless you and to let you know that she is **MAGNIFICENT**. Her sense of freedom, expansion and magnificence is what thrills her. She is awe-inspired by the realm in which she now exists, and is learning to touch higher-level knowledge and wisdom. This, as you well know, has always been her greatest desire and passion.

Now imagine being able to do so with no limitations of an earthly brain or an earthly brain capacity. She can now absorb, assimilate and comprehend as much wisdom and knowledge as she desires. This is her 'food and drink'. This, to her, is ecstasy.

She has not forgotten you. She celebrates her time on this planet with all of you, her joyous soul family. She thanks you for all you have done for her, to prepare her for her current existence.

BLESSINGS FROM THE ASHTAAR COMMAND.

(Sohrab shifts energies)

Greetings from your friends from under planet Earth's surface!

Yes, we have spoken to you before; and we are here to share some current knowledge and information with you.

Let us define who we are. There are many beings that inhabit this planet: you are not the only ones. Many others are subterranean dwellers. Some, like us, are semi-physical. Others have a purely energetic form. Yet others have full sentience and consciousness, but exist in a form you would perceive of as oil and other natural liquids of the earth.

Our race inhabits various large caverns deep within the Earth. We have the ability to change form, from solid to semi-solid to pure energy, at will. This frees us, and even allows us to visit the earth's surface unnoticed, when we so desire.

Many of you have read about us: some of the information is accurate; some is distorted. But we do have a high-vibrational, thriving society. We have energetically shielded ourselves from the surface-dwellers. It would not be appropriate for the Human Race to discover us yet. You are well aware of the levels of confusion and fear that exist amongst most of your people. We would be plundered and destroyed. We shield for self-preservation.

Great changes are now taking place within the planet. New energies are being directed towards earth by the three newly-discovered planets. These are being stored and utilized by Earth's core center.

This core center, which may appear to you to be molten lava, is actually Her greatest point of sentience. It is Her brain. It is very alive: it thinks, feels, plans and ideates, just as you do with your brain. This core center is now beginning to vibrate at a very high frequency, releasing powerful blasts of energy into the rest of her body. This is causing major energetic shifts.

Right now these shifts are occurring so deep within her structure that you cannot sense them at the surface level. Some of these shifts are physical, wherein tectonic plates will move and the chemical composition of the soil will change. But most are purely energetic.

As we have a deep connection with Planet Earth and a sense of responsibility, we are working with the Mother to facilitate these changes in the smoothest and most effective manner possible. To do so, we have appointed representatives who have been strategically placed within her structure, to direct and guide the energies as they are being released.

Some of us now walk among you. We have come to prepare the surface for the time when the energies fully emanate outward. These effects will be experienced by you over the next three to five years.

Some will be physical shifts: earthquakes, water movements, changes in the wind currents, tornados and so on. But most will be felt energetically. Cities are going to be energetically

enlightened to such a degree that the human race will have tremendous opportunities to upgrade its way of thinking, behaviour, and attitude.

These energies are also going to change your farmlands; offering them new nutrition and helping them reject pesticides and other harmful pollutants you have introduced to them over the years.

These energies are also going to affect humankind, individually and collectively. This has already begun, but the effects are so miniscule that you are not yet conscious of them. Over the next three to five years, you will be. We would like you, as Lightworkers, to tune into them from now, so that you can be the energetic leaders in this process for humankind.

These vibrations (which we are currently streamlining and sending upward) are primarily going to affect your ***brain, pituitary and pineal glands***. Other parts of the body will also be upgraded, but the focus will be here. This will offer you the opportunity to really hone your spiritual senses. Here, we refer to your higher level senses: sight, sound, touch, taste, understanding, and vision. Tune in.

Try it right now. Close your eyes and center yourselves. Connect with Planet Earth's core center. (Pause)

Now, with your inner ear, listen to a hum. This will be very similar to the deep, internal OM's you chanted at the beginning of this meeting. You won't hear it audibly, but you will hear it with the inner ear. (Pause)

Turn your attention to your brain, pituitary and pineal glands, and observe how active these areas get while you continue to listen to the hum. (Pause)

This may make you slightly disoriented or dizzy. Just relax into it. Try it again. (Pause)

Gently return to full consciousness. Would anyone like to share what they just experienced?

A deep vibration in the inner ear. My head began to spin. I sensed a lot of energy.

It was like a joyride!

The OM went into my stomach and reverberated there.

Excellent! We would like all of you to play with this as frequently as you can. In the beginning, you will need to practice this in silence and stillness. You don't need to do this for a lengthy period of time; a few minutes will suffice. In fact we suggest that you don't overdose on these energies. Acclimatize to them over time.

You also don't have to try and 'download' information while doing this; just experience it. As you get familiar with this process, you will feel it entering and affecting different parts of your body. But the main thrust will always be within the skull.

When you are fully conversant with this process, ***you can actually use it to spontaneously heal any part of the body.*** That is how important this exercise is. So even if this takes you a few years, keep working at it.

This new ***Earthsong***, which you are tuning into, will be a very deep vibration. However, on certain days, if you experience a lighter frequency, embrace that as well. But in general it will be deep, intense, new Earthsong.

Since you are so strongly connected with Planet Earth, ***this is possibly your greatest healing tool.*** Use it! It will not only heal the body, but will also help you expand your vibrations and your consciousness. With this flowing through you, you will be able to think and ideate more clearly, see things from a wider perspective, better deal with situations and embrace your earth mission. In short, by tuning in to Earthsong, you will be a much more expanded and vibrant human being.

Our representatives are now walking amongst you. We cannot hold a physical form for more than a few days at a time, so we emerge, work, and silently return home. Another then takes the place of the first; we work in harmonious rotation.

What will you actually do here?

Most of our tasks are silent and secret. Some of us may work in laboratories, planting thoughts and ideas in the minds of your scientists, so that they come up with new and necessary inventions and discoveries to benefit the Planet. Others will work with farmers, helping in the generation of more nutritious crops. Some will work in isolation with the land itself. Yet others will help in the creation of surface energetic grids. These are but a few examples. And (smiling) some of you may meet us!

Can you help us solve our water problems?

This is a slap in the face for humanity; a deliberate shake-up to urge people to awaken and learn to take responsibility for their Mother-given natural resources. We are attempting to help in small ways, but we are not permitted to do so extensively.

This is not the only area in which you need to awaken: you have over-polluted the very air you breathe, you have created rips in the ozone layer, and you are systematically over-utilizing all of the Mother's natural resources. The Human Race must now awaken.

YOU ARE BLESSED BY YOUR FRIENDS FROM WITHIN THE EARTH.

(Sohrab shifts energies)

(Now speaking to N, who had held a sale of Angels and other decorative items before the meeting)

As a gift, we have energized every single artifact you have brought here today. Each of these is blessed by the energies of the Lord Jesus Christ.

BLESSINGS.
