THE GANESH ENERGIES OF 2017

THE SAI BABA ENERGIES OF 2017

This room is filled with pure, golden light. Open your crown chakras and fill with it, head to toe. (Pause) Do not give it any instructions; just receive it. (Pause)

And it is so. And it is so. And it is so.

Greetings, dear friends! What qualities do you generally attribute to the Ganesh?

Wisdom and power.

Joy.

Remover of obstacles.

Innocence.

Purity.

Playfulness.

Dear friends, all of these qualities are indeed a part of the Ganesh frequencies. These energies have begun to flow on Earth 14 days before the onset of the festival, and will continue to do so for another 14 days after the festivities are over. The energetic window is very wide.

During 2017, these energies are going to work with merciless wisdom. Listen to our words: ***merciless wisdom***. They are flooding the planet this year, and are working with all her kingdoms. Yes, every single human being

will internalize them, whether or not they even know of or acknowledge the existence of these energies. This is because they have been demanded by the collective consciousness of Planet Earth.

Yes, they are going to be merciless: the spring-cleaning has begun. If scouring or unearthing is necessary, they will not hesitate to do so. And where gentle nurture is necessary, that will be done.

So why do you call it 'merciless'?

These energies will brook no resistance. You can try to resist all you want; but if your higher soul demands that you be 'shattered', then that will take place. And the more you resist, the more painful will be the process.

Planet Earth herself has also called for release of debris from her structure. So, once again, this year you will experience earth shifts, cleansing by water and fire, and other forms of natural upheavals. All of this is necessary to release trapped, stale energies.

We demand that Lightworkers like you do not allow these events to paralyze you. Add your energies to the processes so that the events take place smoothly and effectively. Don't try to block them or avert them.

Yes, there are going to be more terror attacks. Yes, there are going to be more invasions. All part of a vigorous cleanse; one demanded by the collective consciousness for the years 2017 and 2018. Dear friends, we are not trying to scare you. We are simply alerting you, so that you align with the process.

Of course, the same process applies to you personally. If there are physical, mental and emotional aspects you have been running away from or suppressing, they are very likely going to come up for reviewal and assimilation. The quicker you face them and deal with them, the easier it will be for you. Don't resist.

All of this will take place in total alignment with your own higher soul. That is why we also used the word 'wisdom'. Please do not view these energies

as 'evil' or 'punishing' ones; not at all! They are divinely loving and compassionate; but they will brook no resistance.

We suggest that, during this festive season, you practice a little daily ritual. This has no bearing on whether or not you have brought Ganesh to the home. Either way, we offer you a simple, short, yet extremely empowering exercise.

Every morning, at a time convenient to you, take a few minutes and sit in front of a Ganesh statue. If you don't have one, simply create one energetically. Visualize it bursting into golden light. Take in this light and fill your entire physical body with the pure, blinding, golden light of the Ganesh Collective.

When your body is full, let it burst out of you in all directions, filling your extended energetic body. Then simply sit for a few minutes and enjoy the expansion.

Do this every day. There is a reason we are suggesting it. This little process will help you align with the current Ganesh frequencies. In doing so, you will easily touch your own higher frequencies and seamlessly explore that which you need to, for your personal growth and evolution.

Do this, and the entire process will be easy. And, of course, you can continue to do so in the future, if you so desire. But at least do so, on a daily basis, during the official period of the Ganesh festivities.

Now we have ***a specific note for those who have chosen to physically celebrate by bringing home a Ganesh. When doing your aarti and other such rituals, this year it is imperative that you do them with integrity, honesty and sincerity. Otherwise, don't do them at all.***

If you do these rituals because your family or society demands it of you, without desire, meaning and intent, the energies will backfire on you. This could cause disturbances in your physical, mental and emotional bodies. So, either participate whole-heartedly, or not at all.

Will the Ganesh energies end after the stipulated period, or will they continue throughout the year?

The major thrust began 14 days before the festival and will continue 14 days after it is officially over; but of course the energies will carry forward till next year's festivities. However, the flow will diminish over time.

Will a picture also serve as well?

Yes; a statue, a picture or simply a mental image.

Do we do this once a day?

Yes, that is all you need; but if it pleases you to do so more than once, you may joyously do so. You don't need more than a few minutes; but do it with sincerity.

This year, we suggest that you visualize the Ganesh frequencies as blinding golden light; sunlight-like. Let it dazzle the third eye.

Can we use this light to clean up the pollution left behind after the festivities are over?

We urge you to do so. Use this energy to purify the oceans, the land and your city. The debris that is now being released by non-ecofriendly statues is extremely toxic. It is going to cause repercussions for years to come. The people must awaken.

During this period, all of you will be vibrating with this pure golden light. We therefore suggest that, *after you have internalized it*, you spread it around joyously. Embrace your family, friends, strangers, homes and city with this energy. Spread it to personal and world-related volatile situations.

However, we repeat: don't try to stop them; simply urge them to a smooth and successful conclusion. Even when working, for example, with a war-torn country; don't give the energies any direction other than your blessings.

Take a moment once again, and open to the glorious Ganesh frequencies.

Welcome them in. Pure, golden light. No fear, no hesitation, no reluctance. Allow the body to absorb them and begin to vibrate. Enjoy it. (Long pause)

And so it is.

Dear friends: ***three predominant areas are going to be targeted worldwide by the Ganesh frequencies this year, for cleansing and upgrade. They are the business community, the educational system and the political arena.***

You will observe scams being brought to light. Outmoded systems must be upgraded. Debris must be brought to the surface. Shake-ups in all these three areas have to take place. And the Ganesh frequencies will work at this mercilessly, but with wisdom, to ensure a better and brighter future for humanity. It's time this happened.

BLESSINGS.

SAI KA PRANAAM.

The Sai's energies are very present worldwide. They, too, have been summoned by the collective consciousness to infiltrate the energetic structure of every human being.

But they will work differently to the Ganesh energies; but in perfect harmony. While the Ganesh frequencies will work to scrub and cleanse humanity, the Sai's will help you then energize, uplift and expand the self. They will help you explore, in fullness, that which you desire.

You have every right to call upon us to help enhance your personal relationships, your business and finance, and anything that you wish to expand and enhance. We will help you do just that.

BLESSINGS FROM THE SAI.

(Sohrab shifts energies)
